ATTENTION TO ALL OFFERORS:

Class Deviation from VA Acquisition Regulation (VAAR) 819.7003

Eligibility

Purpose: Specifically, this deviation adds an exception to VAAR 819.7003 at VAAR 819.7003 (e). The exception provides that: At the time of submission of an offer, previously verified SDVOSB/VOSB firms identified by the Center for Veterans Enterprise (CVE) as currently undergoing the SDVOSB/VOSB re-verification process are eligible for Fast Track. However, an award shall not be made to the offeror-firm until verification is complete. Fast Track applications will be processed within 21 business days when practicable.

Please note: There are three rules to simplify the process –

1. If a company is listed in the VIP database with a verified logo, we may proceed with the award. This means that there is a verification logo next to the firm name on the database as well as the word “verified” in the Registration Status field.
2. If a company is listed in the VIP database with a note indicating that the firm is undergoing the re-verification process at Center for Veterans Enterprise (CVE), the firm is eligible for Fast Track re-verification. Please contact CVE at (202) 303-3275 or vacvereverify@va.gov to implement Fast Track procedures and ensure the firms application is processed quickly.
3. If a company is not visible in the VIP database either having a verified logo or the note that it is undergoing the verification renewal process at CVE, it is not eligible for either award or Fast Track. Companies in this category must undergo normal verification procedures, and are required to be verified prior to submitting an offer in accordance with VAAR 819.7003(b) (3).

For questions or concerns regarding this **Acquisition Policy Flash**, please contact Eyvonne Mallett, Senior Procurement Analyst, at 202-461-5101 or through the VA Procurement Policy mailbox at: VA.Procurement.Policy@va.gov.

If you have questions specific to the re-verification process, please contact CVE at (202) 303-3275 or vacvereverify@va.gov.
